

Phase Shifted FBG

Phase shifted Fiber Bragg gratings show a very narrow transmission band within its reflection bandwidth. DK Photonics can offer athermal packaged FBG.

Name: **Phase Shifted FBG**

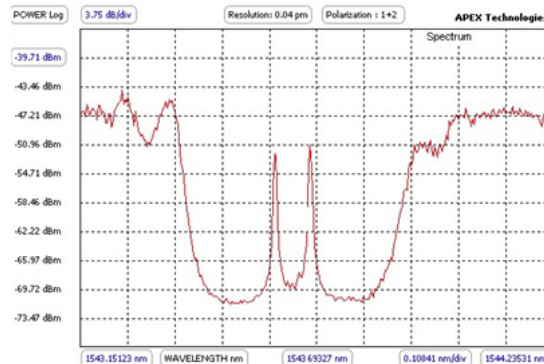

Class: [FBG Products](#)

Type: [Fiber Bragg Grating Products](#)

Price: *As low as*

[Inquire Now](#)

- High power Components
- PM Components
- Circulator & Isolator
- 1064nm Components
- Pump Combiner
- Fused Products
- WDM Products
- Hybrid Device for EDFA
- FBG Products**
- Patchcord & Attenuator

Specifications

Parameters	Values
Center Wavelength(nm)	1510 ~ 1590
Reflectivity	50-99%
Transmission Bandwidth(nm)	0.05 (typical)
