### Portable Fiber Polisher

PRINTER FRIENDLY

Developed for 'In-the-field' and 'Retro-Polishing' applications, the FTTx portable connector/termini/contact polisher from ULTRA TEC provides the performance required by installation professionals for the FTTx, LAN, CATV, and Aircraft/shipboard applications.

Industry-standard polishes are readily achieved due to a robust design and system build along with using the latest techniques.

The polisher can be held at any desired angle during operation. This allows for true portable operation in small workspaces, cross-connects, fiber nodes and wire closets. The unit can be operated with either a battery pack or a power supply (both included with standard package).

### Product Highlights

- Retro-polishing** - Bring already-installed connectors up to current industry requirements
- Use anywhere** - true portable machine, with battery power
- Bench-top stand** - converts polisher for small production use in the factory

### Machine

Order Code:	Item
9005.4	FTTx Portable Polisher, includes: polishing unit, bench-top stand, 5 resilient polishing platens, 12V Transformer, battery pack, charger and carrying case
4093.1	2" Resilient Surface Platen (PC polishes)
4094.1	2" Hard Surface Platen (flat polishes)
