

Li-ion Portable Remote Area Lighting System

OR-GXL80

1, Introduction

Four parts LED output, adopt imported high brightness LED light source, with aviation aluminum ally light head shell, and they have hidden type sealing ring. The suitcase adopts the sealing rubber ring, enabling it waterproof and compression resistant and shock proof.

Intelligent power display, real-time display of the current battery capacity status, when the power is displayed as a red light, please charge.

There are hand screws on the light mast, you can fix the lamp, LED lighting direction adjustable

2, Turn on the light device, press the button continuous, light intensity levels in sequential: LOW-MIDDLE-HIGH-OFF.

3, Specification

Light device height: $\geq 1.2M$

Total power: 80W, each light head: 20W

Luminous flux: high/middle/low 5500/2600/1200Lm.

Battery voltage: 28Ah

Battery: lithium battery

Charger: DC12V/3A

Working time: total power 80W working time $\geq 16H$

Suitcase Size: L425*W325*H168mm

Weight: 9.5KG.
