

Police Handheld Uniform Light Source OR-GSW12

Product introduction:

It adopts high brightness LED lamp and projector type combined optical lens, which enables it with uniform projection and ultra-wide lighting range, which is a technology quite different from reflective cup light cannot achieve the uniform projection. Especially suitable for: the workplaces that need uniform lighting or wide lighting range, and can be used for some special purposes, such as the detection of footprints and traces as well as searching ambient environment.

Main parameters:

Power: $\geq 12W$

Light spot at 0.5 m: $\geq \phi 11cm$

LED color temperature: 5700-6500K

LED light source intensity: 1200Lm

Illumination at 0.5meter: 70,000Lx

Uniform light output, without chromatic aberration or light streaks.

Three intensity lever output: weak light- strong light- strobe light.

It is hand-held and equipped with wrist band, making it easy to hold and carry.

Push-type switch button on the back, making it possible for single hand operation.

Lithium ion battery: 7.8V 4400mAh

Strong light lasts for more than 3 hours of continuous use

Size: $\leq 160*41.5*65.5$ (mm)

Weight: 0.67kg
