

## “Technical Unlocking” Criminal Traces Detection System

### OR-GSK1000

#### INTRODUCTION

“Technical Unlocking” Criminal Traces Detection System is specialized to identify traces based on the criminal activity of Technical Unlocking. Mainly used for keyhole with quick detection and analysis, it comes with built-in WIFI hotspot, supports IOS/ANDROID system devices, recording or shooting, storage function and wireless transmission. The HD endoscope can reveal the real details inside the object anytime anywhere. Vivid color, image clear and screen smooth.

#### FEATURES

1. Investigation depth: 0-63mm (the investigation depth is adjustable)
2. Dia. of Detection camera:  $\leq 1.3\text{mm}$
3. The integrated design of the buckle fixed mobile phone mode, the fixed coaxial rotation angle of the mobile phone, one-hand operation, to ensure that the field of view of the detection camera in accordance with the preview area of the mobile phone during the exploration process, the internal traces of the keyhole are clear.
4. Charging interface: TYPE-C
5. One-click start, intensity of light source is adjustable: high-medium-low-off. Default brightness is high intensity.
6. Compatibility: IOS / Android mobile phone APP control program.
7. Portability: The lens adopts push-pull expansion hidden design, and the front of the lens is equipped with a push-type dust pick. Handheld detection camera, ergonomic design, easy to use.
8. Detection camera resolution: 400\*400
9. Color temperature: 7000-8000K
10. Continuous working time:  $\geq 200\text{min}$
11. Charge and discharge indicator: full green light, insufficient red light
12. Folding size (not including mobile phone) :  
128\*70\*40mm, handheld detection camera size: 17\*18mm
13. Weight (not including mobile phone) : 0.15kg
